## SECTION 01

# REVIEW OF CONSTRUCTION CONTRACT MANAGEMENT CONCEPTS FROM A GLOBAL PERSPECTIVE

1 Introduction to the course and Contractual Risks. Review of major construction contract management concepts from a global perspective. This session provides an overview of the participants' concerns about their work from the draft contract phase to the completion of the contract. Developing effective contracts to properly mitigate the risks forms the basis of a successful project. This training focuses on the project delivery systems from the perspective of a construction consultant, with emphasis on core contractual requirements. To assess the impacts of various contract provisions on the overall performance of the projects needs to be competent. The management team will benefit from the following topics for effective contract management.

- The Objectives and Overview of the Course,
- Contract Types and Risk Management,
- FIDIC Contract Types,
- Reasons for the Claims,
- Assessment of Sub-articles Related to FIDIC Claims,

## SECTION 02

# FIDIC CLAIMS AND CONTRACTUAL PROCEDURES & RIGHTS RELATED TO TIME

1 FIDIC Claims and Contractual Procedures,

- Claims of the Employer,
- Claims of the Contractor,
- Decision of the Engineer,

2 Rights Related to Time,

- Work Schedule,
- Time Extension Requests,
- Delay Damages,
